*** NOTICE ***

**TO THE RESIDENTS
OF
Bennington Street, Concord Street and Burnside Road**

Thank you for your patience during the construction of drainage and water main upgrades at Greendale, Bennington, Concord and Burnside roads. We have concluded work with the contractor and are now preparing the next phase of restoration plans.

Following our last meeting with residents at Bennington, it was clear there was significant interest in altering the sidewalk configuration, which was beyond the scope of our original project. We listened to the feedback and are now focused on redesigning the roadway, curbs, and sidewalks to create a final product that truly meets the neighborhood's needs.

We are actively working to identify a funding source and develop a construction timeline for this new phase. We will be scheduling a neighborhood meeting in the near future to show you some design options and get your input.

To make sure you receive all future updates, please respond to this notice by emailing your name and address to jsavignano@needhamma.gov.

For questions or more information, please visit our Engineering Division at the Department of Public Works or contact Justin Savignano at (781) 455-7550.

Thank you for your cooperation.

Tom Ryder
Town Engineer
