Marked Tree Road Design Updates

As a follow-up to our neighborhood meeting last December, we wanted to let you know that the Department of Public Works is finalizing design plans for the Marked tree Road improvements.

We are reaching out to you and some of the other residents along Marked Tree Road because some of the proposed changes may directly affect your property. These changes could include alterations to your driveway or to the adjacent sidewalk, incorporation of drainage systems, or the removal/relocation of trees and utility poles.

We would like to invite you to a personal meeting to discuss the specific design considerations and get your feedback. You can meet with us in person at the Engineering Department or arrange a meeting via Zoom.

As we move forward, we will be providing more updates to all the residents on the street.

If you can please respond to this notice by email with your name and address, it will assist in future communications about the project. arrapi@needhamma.gov

If you have any questions or want more information, you can call us at (781) 455-7550.

Thank you for your cooperation.

Tom Ryder
Town Engineer
